## Reading Support Book Box

Our **Ready to Read!** boxes provide the perfect resource for your school's reading intervention programmes. The books are carefully levelled and clearly colour-banded so you can be sure the books are matched to children's reading abilities.

The boxes are ideal for resourcing individual or small group reading support sessions.

Boxes contain an exciting mix of fiction, non-fiction, 'real' and 'scheme' books. This provides an attractive, high-interest selection which is perfect for engaging struggling readers.

We offer books in sets (maximum of 4), individual titles, or a mix of both. The boxes can be made up with books at a specific book-band level, or a range of levels. Let us know your requirements! Boxes will contain approx. 30 books.

**Book Band levels available:**

**Red, Yellow, Blue, Green, Orange, Turquoise, Purple**
